

2021 USED Pro Performance 58kWh Life Auto 5dr

color:

Mileage:

19342

Transmission:

Automatic

Price:

£14,058.00

Registration:

ND71GPJ

Fuel:

Electric

With only one previous owner and low mileage of just 19342 miles for a 2021 registration car, this Volkswagen ID.3 Pro Performance Life represents a great find. As an electric car, it offers a modern driving experience. The Life trim adds a touch of comfort and convenience, with features such as 1-Zone Climatronic, which includes climate control, and front and rear parking sensors with parking assistance. The all-LED headlights with reflector technology provide excellent visibility, while the comfort package, including heated seats and a heated steering wheel, ensures a cosy ride. Adaptive Cruise Control ACC, incorporating Front Assist, radar sensor-controlled distance monitoring, a city emergency braking system, cruise control, and a speed limiter, enhances safety and ease of driving. This ID.3 stands out with its impressive capabilities. The large boot space makes it more practical than similar vehicles, offering ample room for luggage or shopping. The battery, with a total capacity of 62 kWh, provides a maximum range of 260 miles when new, allowing for longer journeys with fewer stops. Charging at home using a 7kW charger takes approximately 9 hours 30 minutes, while the fastest public charging time from empty to 80% is just 37 minutes. Furthermore, acceleration from 0-62mph in 7.3 seconds means it's quicker off the mark than other comparable cars.
